

2022 Retirement & Longevity Summit
March 13-14, 2022
San Diego-Coronado, CA
COVID-19 Policies & Precautions

Advisor2X, the city of San Diego, the Hotel del Coronado or the CDC may adjust operational procedures prior to or during the event. This document will be updated if any changes are made prior to the event.

All attendees will be required to provide one of the following:

Proof of full vaccination per the Centers for Disease Control (CDC)- (final dose at least 2 weeks prior to check-in date)

OR

A negative test administered no earlier than 5 days prior to check-in, with the goal of having results dated within 48 hours of check-in date. Due to the variance of testing result timing, we recognize it is possible that some tests may be dated slightly longer than 48 hours prior to check-in.

Health choices are a personal and private decision. Under no circumstances will disrespectful behavior toward any attendee be tolerated, whether it be regarding vaccination status, choosing to wear a mask or social distance, attend or not attend evening events, etc. Attendees engaging in such behavior will be immediately asked to leave the event and no refund of registration fee/hotel room charges will be provided.

Frequently Asked Questions

Do I send you a copy of my vaccination card/negative test results in advance of the event?

Please do not send us your document in advance of the event. Our registration team will be checking your document when you check in at the registration desk to obtain your badge. Any health information sent to our team members in advance will immediately be destroyed and you will be required to show your document onsite.

What form of documents will you accept?

Either paper or digital format is acceptable. We suggest you keep a photo of your vaccination card/negative test on your phone or utilize one of the many wallet-like apps available to store your information.

Which type of negative test will you accept?

Either rapid test or 1–2-day tests are acceptable. Home testing kits will not be accepted due to the inability to verify the date of home testing.

What does “full vaccination” mean?

Full vaccination is defined by the Centers for Disease Control. As of the date of this notice posting (12/28), boosters are not required to be considered fully vaccinated, however, that is under active discussion at the CDC. If the definition changes, this notice will be updated to reflect the change.

Will you be retaining my proof of vaccination/negative test information?

No. Our team will look at your document upon check in. We will not retain any of your documents.

What if I forget to bring my documents?

You will be provided with a list of testing centers which offer rapid tests and are located near our host hotel. We suggest you do not rely on those centers having available rapid testing appointments available immediately when you arrive. We are unable to make exceptions or provide badges to enter the event space without one of the two required documents above.

I already had COVID-19. Am I exempt from the above/can I provide proof that I had COVID already?

The above two options apply to all attendees including those who have already had COVID-19.

What if I contract COVID-19 before the event? What if I believe I have been exposed to someone with COVID-19 before the event?

Please do not attend the event if you test positive for or have knowingly been exposed to someone with active virus 14 days prior to your check in date.

Does the vaccination or negative test policy apply to my guest?

Guests who receive a badge to attend evening events are required to follow the same vaccination/testing requirements as all other attendees.

Does the vaccination or negative test policy apply to the A2X team?

The entire A2X team is fully vaccinated and any temporary staff we hire to assist our team at the registration desk and in breakout rooms are required to be fully vaccinated.

What do I do if I feel sick while I am at the event?

Immediately discontinue attending the event activities and contact Hotel Security. If a guest of the hotel needs to be tested for COVID-19, the hotel will provide a list of options for care. Should you test positive, please inform Hotel Security as well as a member of the Advisor2X team.

Hotel Del Coronado COVID-19 Updates

- Visit [this page](#) for up to date COVID safety and precaution information from Hotel Del Coronado.
- Face masks are always required inside the Hotel Del Coronado (not required outdoors for evening events)

Additional Event Space Precautions

- Sanitization Stations are placed throughout the event space
- Speaker technology will be cleaned between speakers (clickers, laptops, mics).
- Registration desk area will be cleaned continually
- Changes have been made to encourage flow of attendees and eliminate standing lines
- Food and Beverage stations have been increased to decrease lines.

Evening Events

- Evening events are outdoor spaces, weather permitting.

City COVID-19 Updates

- Visit [this page](#) for up-to-date information about the city of San Diego mandates and COVID-19 policies.

What if I have other questions?

- Please contact events@advisor2x.com and our team will get right back to you.
